

TRIP

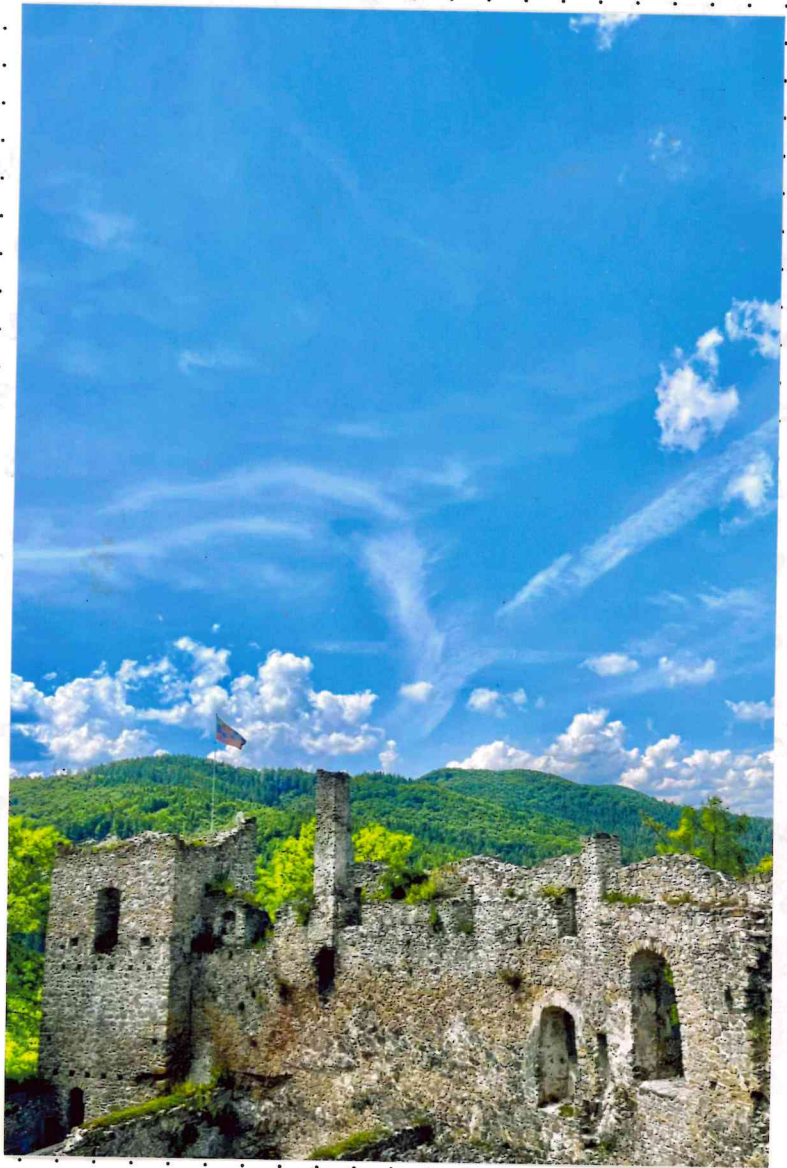

IN

SLOVAKIA

of the 16th June at the 1st July 2024

Summary

1. Travel aspects
2. Commonalities with the pace of life in France
3. Differences with the pace of life
4. My impressions
5. The high-school in Slovakia
6. Typical day and activities
7. Thanks

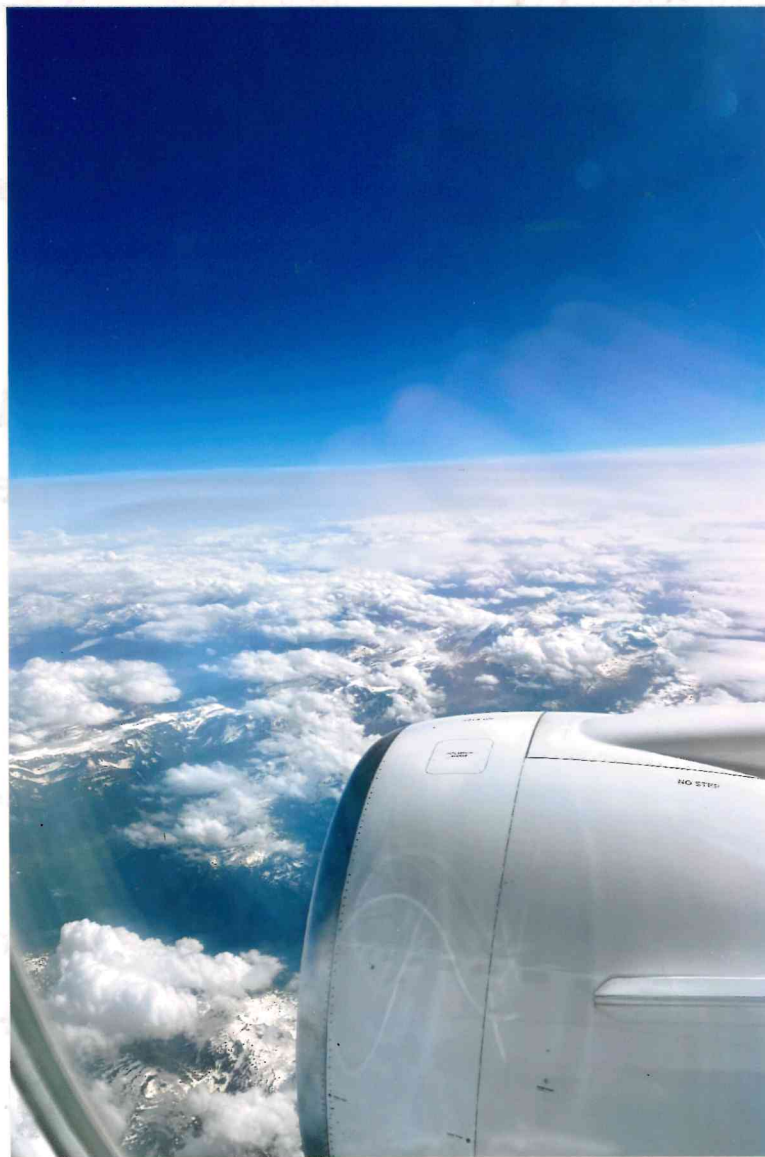

Castle of POVAŽKÁ BYSTRICA

Travel aspects

The trip taught me that I was able to orient myself on my own and it taught me how to manage. In addition, thanks to plane delay I learned to keep my cool and find solutions that you don't expect, fortunately Air France welcomed us in the best conditions because we were accommodated in hotel but also fed.

To finish this point, I visited Austria and the Czech Republic, which was really beneficial.

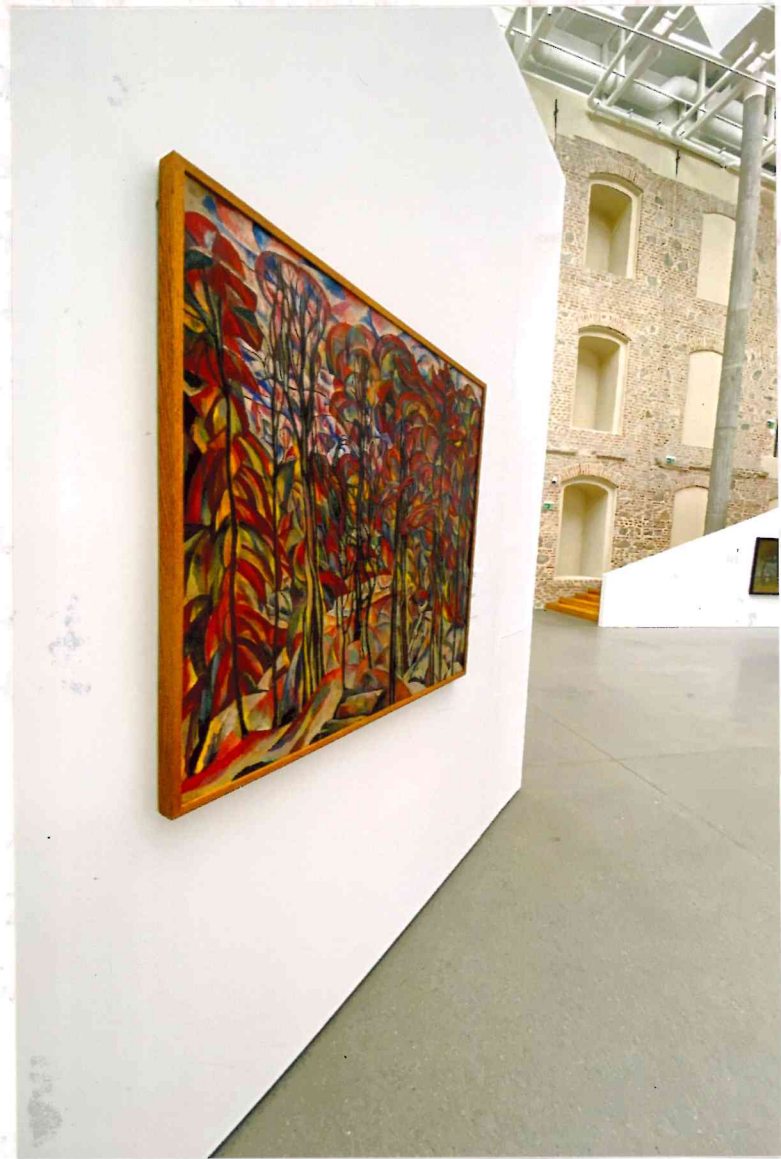

Commonalities Slovakia-France

The similarities with France are certain school subjects such as mathematics, the English lessons, ...

In addition, there are many brands that can be found in France and are present in Slovakia. The people in Slovakia respect much the traditions and the history, which is the same in some French families. In Slovakia, they make a lot of things in family. In this country, they are very secular as in France, it is just one of the other principles they agree with in France. Another commonality, Slovakia and France are in the European Union.

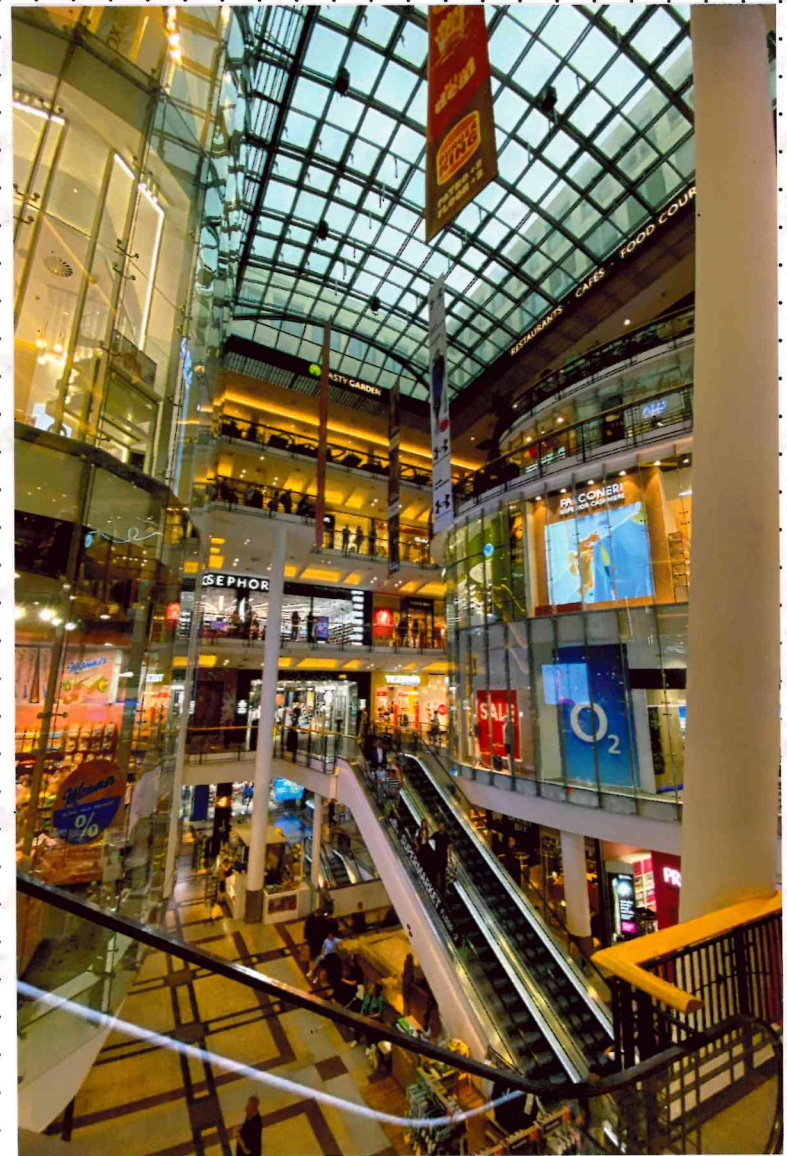

To finish, Slovakia and France have public transportation.

Museum in Slovakia

Differences Slovakia - France

The differences are that in Slovakia there are two forms of religion either atheist or Christian. In addition, in Slovakia every person of the family eats at different times. Always in food, I find the Slovak people eat a lot because there are six meals at the hours of 6 a.m., 10 a.m., 12 a.m., 2 p.m., 4-6 p.m. and 8 p.m. In the school, the pupils eat in the class or in self-restaurant. The hours of school, we begin the lessons at 7 a.m. and we finish at 2 p.m. In Slovakia, the politics is different because they have a right regime or nationalist. In addition, Slovakia is less modern due to communism in previous years, that's also why tourism is less. To finish, the life is cheaper.

Prague Shopping Center

My impressions

I find that Slovakia is a beautiful country by the nature and capital. I like the rhythm of life by the hours in school, the activities, the climate, the Slovak people. I find the Slovak people are much generous than French people. In this country, I like to see the fact that there are a lot of small shops. I loved travelling alone because I felt independent. I loved finding one of other families since I was in two families, they taught me a lot of things about their culture, we made jokes, I felt like I had always known them!

Landscape of Slovakia

The High-School in Slovakia

To begin, class hours are very different from our hours in France because the pupils begin at 7am and they finish at 2pm, in the meantime, they have lunch at noon. On the other hand, the hours of breaks are the same as in France. In addition, the courses are similar than France, except that instead of France it's Slovak. Their high school was composed of a management team such as France high school, principal, supervisors, teachers,...

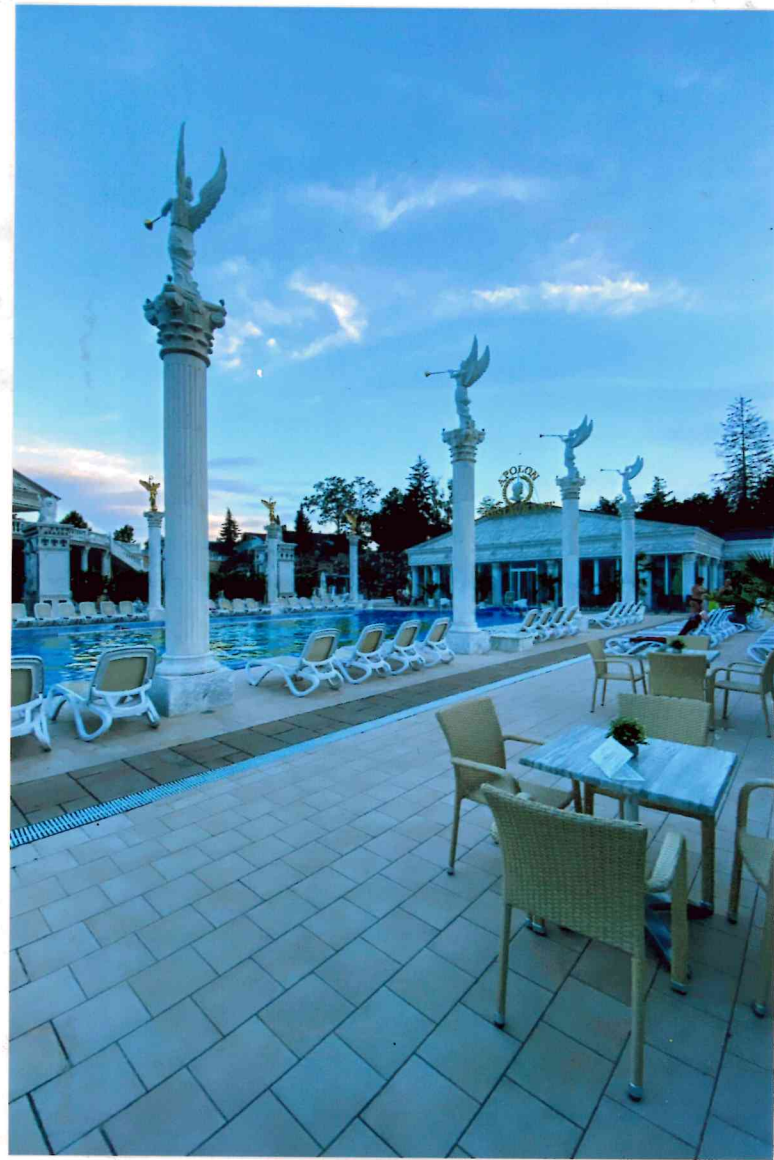

In their school, you had to badge when you entered the high school to notify the presence despite that there was still a call. In Slovakia, there was a small school compared to Notre Dame with only 200 students.

Mltava in Prague

Typical day and activities

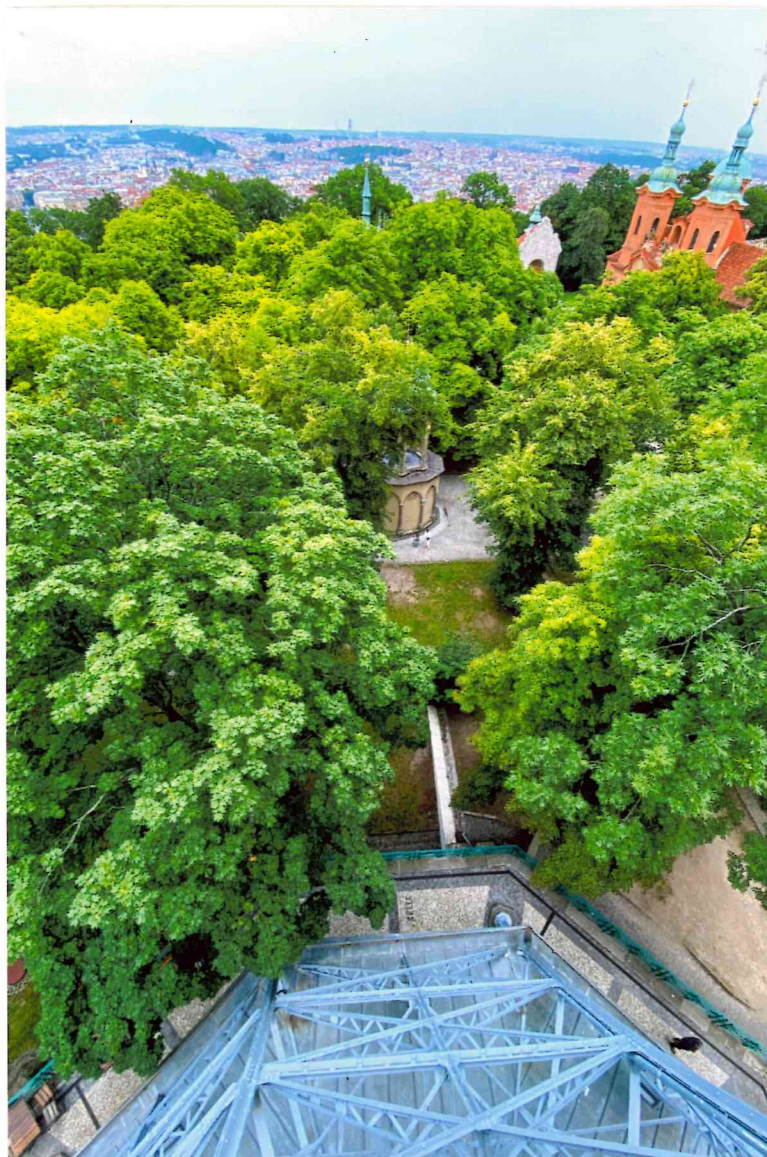

For example, we are going to take June 19. We woke up at 6 a.m. then we had breakfast, after we took the bus to go to school. Then from 7 a.m. to 2 p.m. we were at school. At noon, our referent on site had prepared a meal for us. Then after school, we took a walk in town and then we ate. After we went to the family's house to prepare our things to go to the spa. Then we arrived in spa, it was sublime and incredible spa by the architecture. After the spa, we went home for dinner. Then the meal was over, we went to the town hall since the father of my family was mayor of his city. Finally, we went home and slept.

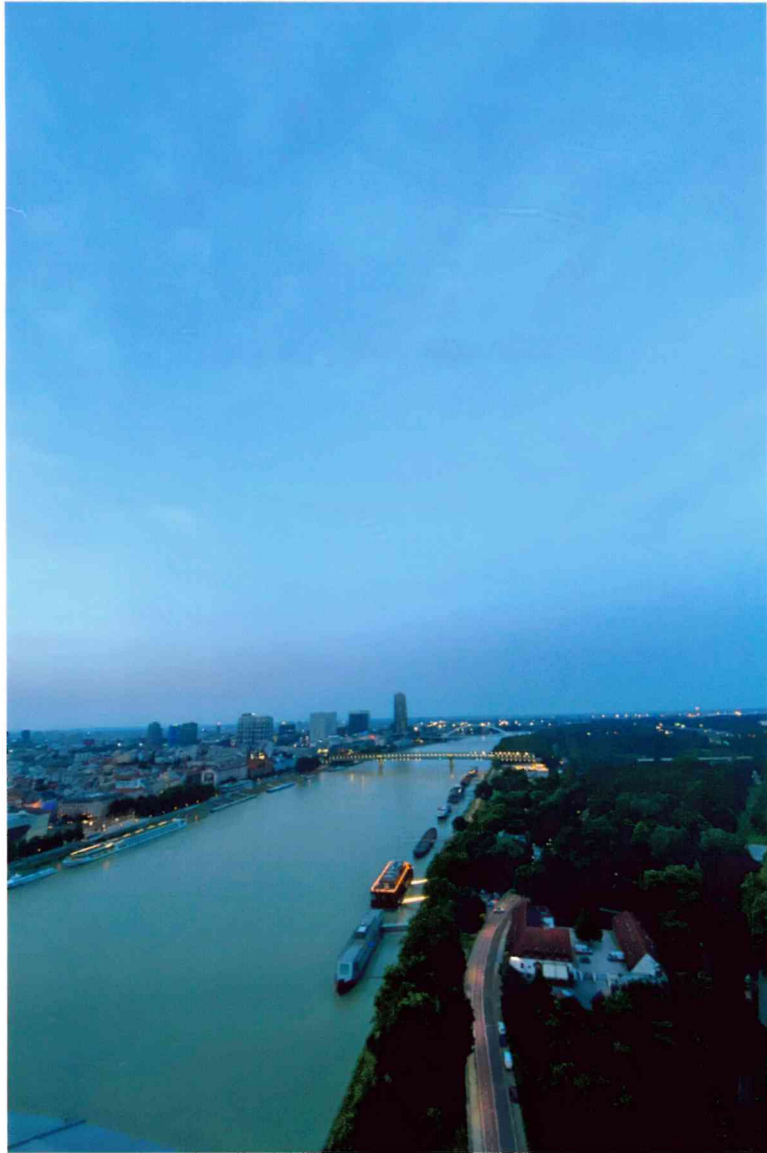

The spa in Slovakia

Thanks

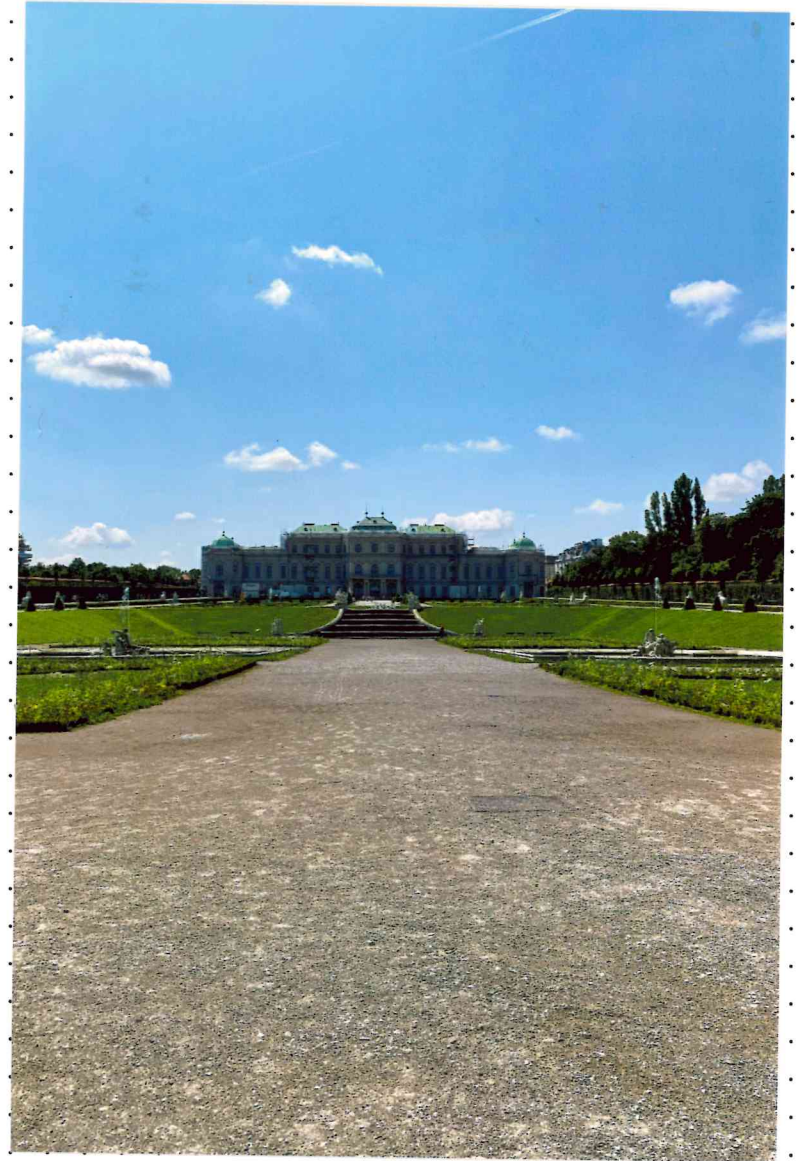

I would like to thank Mister Dennier for the remote support, Mister Bui for coming with us, Miss LeRoy for the help, the families who welcomed us and the European Union that made us benefit from an extraordinary trip, thank you! And thank you Mister Peutin for the papers!
